# INCREASE YOUR PENIS SIZE

Now, every man can know the power of having a **HUGE** cock!

## HOW IT WORKS

- This is not a penis pump. This is not a sex toy. The Bathmate uses hydraulic pressure to expand the blood vessels and tissue in the penis. With a thorough regimen of daily use, results gained will continue to develop.
- Water creates a far more powerful vacuum than air, which in turn leads to greater power to increase penis size and to exercise the penis. Warm water develops blood flow while cushioning and lubricating the penis as it expands to fill the tube.
- Temporary gains in length, girth, erectile strength and stamina will occur after first use. These results may range from 0.25" to 1.00" in girth. Length will vary with participant, but all gains improve with time.

### TESTIMONIALS

**"The results are magnificent in the bedroom. Wifey now complains if I do not use KY or Astroglide."**

**"The gains seem to be permanent. I can quit working out for weeks and still have a fat chubby."**

**"I have to say I have only used this for a week or so and I have been bigger and thicker after using the bathmate a few hours before sex."**
